SHAIK KHAMRUDDIN

Automation Test Engineer, 3+ Years, Selenium, Java, Playwright, REST Assured, Jenkins

Khamruddins18@gmail.com • linkedin.com/in/shaikkhamruddin1 • +91 6304339213 • Hyderabad

PROFESSIONAL SUMMARY

Automation Test Engineer with 3+ years of experience building scalable test automation frameworks for enterprise Healthcare and E-Commerce applications. Hands-on experience with Selenium WebDriver, Java, TestNG, Playwright (JS/TS), REST Assured, and Jenkins CI/CD. Skilled in Hybrid POM, Data-Driven Testing, API automation, cross-browser testing, and AI-assisted test generation.

TECHNICAL SKILLS

Automation: Selenium WebDriver, Playwright (JS/TS), Java, TestNG, POM, Hybrid Framework, Data-Driven Testing
API: REST Assured, Postman, REST APIs, JSON Validation, HTTP Methods, Status Code Validation
CI/CD & Tools: Jenkins, Git, GitHub, Maven, JIRA, Extent Reports, Playwright HTML Reporter
Testing: Regression, Smoke, Sanity, Functional, Integration, End-to-End, Cross-Browser, RBAC
Programming / DB: Core Java (OOP, Collections, Exception Handling), TypeScript, JavaScript, MySQL

PROFESSIONAL EXPERIENCE

Automation Test Engineer — Cognizant *Sep 2023 – Present*

- Designed and maintained a Hybrid POM + Data-Driven automation framework using Selenium WebDriver, Java, and TestNG, automating 200+ regression, smoke, and sanity test cases and reducing manual testing effort by 45%.
- Built REST API automation suites using REST Assured and Postman, validating JSON responses, status codes, authentication flows, payloads, and data integrity for appointment and patient-facing services.
- Developed and maintained Playwright (JS/TS) automation suites covering patient registration, appointment booking, checkout, and other critical user journeys; migrated key regression scenarios from Selenium to Playwright.
- Designed Playwright Page Object Models in TypeScript and used auto-waiting, built-in assertions, network interception, and Trace Viewer for reliable cross-browser execution across Chrome, Firefox, Edge, and WebKit.
- Integrated Selenium and Playwright automation suites with Jenkins CI/CD and GitHub Actions for scheduled and PR-level execution, reducing build-to-release cycle time by 35%.
- Generated detailed HTML test execution reports using Extent Reports (Selenium) and Playwright HTML Reporter with failure screenshots, enabling faster root cause analysis and transparent QA reporting.

KEY PROJECTS

Healthcare Insurance & Management System *Healthcare — Automation Test Engineer*

- Automated patient registration, Insurance booking, billing, and RBAC workflows using Selenium, Java, and Playwright.
- Developed REST Assured API automation for appointment and client insurance purchase; validated payloads, headers, status codes, authentication, and error handling.
- Integrated Selenium and Playwright suites with Jenkins and generated Extent Reports and Playwright HTML Reports for CI execution.

Online E-Commerce Application *E-Commerce — Automation Test Engineer*

- Automated login, product browsing, product customization, cart management, checkout, and payment flows using Selenium, TestNG, and Playwright.
- Validated pricing, discounts, delivery dates, dynamic dropdowns, date pickers, and order confirmation workflows; used Playwright storage state to persist sessions and reduce execution time by 30%.

CERTIFICATIONS

- Playwright Automation with JS/TS – Rahul Shetty Academy
- Selenium WebDriver with Java – Udemy
- API Testing with Postman & REST Assured – Udemy
- GenAI Tools & AI Agents for QA Automation – Rahul Shetty Academy

EDUCATION

Bachelor of Technology (B.Tech) – Mechanical Engineering *2023*
Hindustan Institute of Technology and Sciences, Chennai
